RE: Chemical Laboratory Certification
Lab ID #41600

Dear Ms. MacGillvray:

Enclosed is the new chemical certification for your drinking water laboratory.

The laboratory is certified to analyze drinking water samples for the chemical analyses methods listed on the certificate and accompanying scope of analysis. Analyses performed by analysts not approved by a primacy agency, or utilizing method not listed on the certificate, will not be accepted for compliance.

The certification expiration date is June 30, 2024. Application for renewal should be made at least thirty days prior to the expiration date with the submittal of a completed application and the appropriate fee.

All results are to be reported to the Department by either XML or direct entry. Analytical results must be received by the Department no later than 10 days after the end of the compliance month. The Lab ID# is 41600 and must be included on all reports submitted to this office for compliance.

If there are any questions regarding this matter, contact me at (334) 271-7775 or bal@adem.alabama.gov.

Sincerely,

A handwritten signature in black ink that reads "Benny A. Laughlin".

Benny A. Laughlin
Compliance Assurance Section
Drinking Water Branch

Enclosure

The Alabama Department of Environmental Management

certifies that

Summit Environmental Technologies

Having met Department laboratory certification criteria, is approved to conduct
Drinking Water analyses for the following:

Radionuclides, Synthetic Organic Chemicals, PFAS

Effective July 1, 2023 through June 30, 2024

Jeffery W. Kitchens, Chief
Water Division

Alabama Department of Environmental Management

Laboratory Number 41600

Summit Environmental Technologies, Inc.

Expires 06/30/2024

Analyte	Method	Analyte	Method
Metals		Synthetic Organic Chemicals	
Antimony	Not Certified	Benzo(A)Pyrene	525.3
Arsenic	Not Certified	Carbofuran	531.2
