Reza Tand Summit Environmental Technologies, Inc. 3310 Win Street Cuyahoga Falls, Ohio 44223

Laboratory ID: 9988

Effective Date: 07/01/2023

Dear Reza Tand:

SUBJECT: Radiochemistry Reciprocal Certification

The information originating from the Florida Department of Health, and your laboratory has been reviewed. Based on the Florida Department of Health Certification of Summit Environmental Technologies, Inc., the Michigan Department of Environment, Great Lakes, and Energy (EGLE) will accept the results generated by your facility for compliance monitoring under the Safe Drinking Water Act, 1976 PA 399, as amended. The results that will be accepted are for the following contaminants and certification levels:

Radiochemistry

Certified Parameters:

Gross Alpha (via U.S. EPA Method 900.0)

Gross Beta (via U.S. EPA Method 900.0)

Radium-226 (via U.S. EPA Method 903.0)

Radium-228 (via U.S. EPA Method 904.0)

Uranium (Mass) (via U.S. EPA Method 200.8)

Our acceptance of results and certification of Summit Environmental Technologies, Inc. is contingent on your continued certification by the Florida Department of Health. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state approved supplier on a running 12-month basis throughout the certification period and the results of any on-site inspections conducted by the Florida Department of Health or their agents.

Our certification of your facility will expire on June 30, 2024.

Reza Tand Summit Environmental Technologies, Inc. Page 2 July 18, 2023

Laboratories are required to submit a completed application with the required supporting documentation every three years. Your three-year re-application date is June 30, 2026. In addition, laboratories are required to forward a copy of the certificates and on-site inspection report with the laboratory's corrective action reply once they renew in their home state, and other states used to support the reciprocal certification. Based on these documents and the laboratories proficiency testing status, you will be reissued reciprocal certification for the State of Michigan with effective and expiration dates matching the home state certification. Seven months in advance of "three-year reapplication date" you will be emailed a complete certification re-application package.

If you have questions regarding this information, please contact me by phone at 517-930-7040 or by email at lundyg@michigan.gov.

Sincerely,

Gregg A/Lundy
