Interim Cabinet Secretary

Ayne Amjad, MD, MPH  
Acting Commissioner & State Health Officer

January 2023

Laboratory Director

Re: 2023 West Virginia Drinking Water Laboratory Certification Renewal

The West Virginia Office of Laboratory Service, Drinking Water Certification Program has completed its assessment of your 2023 West Virginia Drinking Water Laboratory Certification Renewal application packet. Your certificate and corresponding certified parameter list are enclosed. This certificate expires on December 31<sup>st</sup>, 2023. Conspicuously display the certificate in the laboratory with the certified parameter list in a location on the premises visible to the public.

Laboratories are required to notify the West Virginia Drinking Water Program of any key changes in ownership, location, personnel, instrumentation and Home State Certificate and Scope which might impair the ability of the laboratory to maintain the required standard of quality.

To maintain certification, the laboratory must provide annually, an acceptable proficiency testing water study for each certified parameter/method. A Corrective Action Report must be submitted for an unacceptable proficiency testing water study result, also.

The West Virginia Office of Environmental Health Service, Compliance and Enforcement Division must be notified as soon as possible when a compliance sample result exceeds the maximum contaminant level.

If you have further question, please contact me.

Sincerely,

A handwritten signature in blue ink that reads "Matthew Keaton".

**Matthew B. Keaton**
